Learning Plan:

Prior Knowledge or Skills

Prior

1. The students will be given a specific time period to bring in pictures of family members or friends who are Veterans of the United States Armed Service. This can include both living and deceased individuals.
2. The students must know how to use the camera/device and be able to use a digital storytelling program or app.
3. The teacher will use the [History of the Holidays: History of Veterans Day](#) - video on Youtube to explain the history of Veteran's Day.
4. The teacher will discuss Patriotism and allow the students to brainstorm ideas of how to show Patriotism.

Lesson Plan

1. The students will take pictures of either the picture itself or of the student holding the picture of the Veteran.
2. Using the Digital Storytelling program or App, the student will use the pictures to create a digital presentation to show at a school/ community assembly.
3. The students will show the digital presentation to a partner.
4. After final edits, the student will share the presentation with the teacher to be graded by rubric.

Checking for Understanding:

1. The teacher will use the rubric to grade the presentation.
2. Students will be able to understand what is Patriotism and how to show Patriotism.

Higher Level Questioning

1. Besides Veteran's Day, what other holiday or anniversaries, are important to celebrate in West Virginia.

Accommodations:

This project can be completed by peer groupings. The teacher can partner students at a low ability level with one that is at a higher level.
